CEI Inspection
Project #R02035

Introduction:

In accordance with RCRA policy, commercial hazardous waste transporter, generator or treatment, storage, and disposal (TSD) facilities are subject to Compliance Evaluation Inspections (CEI) which address facility environmental concerns. The inspections are conducted to evaluate compliance with all applicable standards promulgated under 40 CFR parts 262 through 268. In addition, the inspections involve an evaluation of the facility's compliance with the land disposal restrictions which were promulgated by the EPA on November 7, 1986. The land disposal restrictions (LDR) prohibit the disposal of listed spent solvents (F001, F002, F003, F004, and F005) unless certain concentration based standards are met.

Under TES V Work Assignment R02035, CDM Federal Programs Corporation (CDM Federal) was contracted to conduct a CEI at Clean Venture in Perth Amboy, New Jersey. CDM Federal visited Clean Venture on September 30, 1992 to conduct the CEI. The information contained within this report was obtained from facility personnel and onsite records during the CEI, except where referenced otherwise.

The CEI was conducted using (as appropriate) the RCRA Inspection Form, General Site Inspection Information Form, Inspector's Multi-Media Checklist, General Instruction for Waste Minimization Checklist, Transporters Standards Checklist, Hazardous Waste Tank System Inspection Checklist, and RCRA Land Disposal Restrictions Inspection. The evaluation of compliance with the land ban restrictions (as appropriate) was conducted using the RCRA Land Restriction F-Solvent Checklist. These and other relevant documents are attached to this report.

Regulatory Concerns: See "comments".

Exterior Observations: Equipment stored in orderly fashion, no obvious violations observed. Refer to comments section.

Operations and Processes: See "comments".

Storage Areas: Not determined; see "comments".

Photographs: Attached, showing trailers, tankers, vans.

Documents Reviewed: None.

Documents Copied: None.

Comments: Access to the facility was refused and a complete audit was not performed by this inspector. According to Mr. M. Persico, calls were placed to the EPA officials named in the letter of introduction and the CEI brochure to schedule an appointment for the inspection. This inspector was not present during the attempted phone calls. A brief discussion of the intent and nature of the inspection was held with intent and nature of the inspection was held with Mr. Persico and Ms. S. Boone. Ms. Boone was informed that the inspection would be an inconvenience. Twenty-four hour notice is required by Clean Venture to conduct a "surprise" inspection at least 1 week's notice is needed to schedule a formal inspection. Recommend a complete RCRA audit.

Checklists Completed: None.
